OIL, GAS & MINING

NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

Honofor Mino

I. GENERAL INFORMATION (Rule R613-003-104)

1.	Name of Claim/Mir	ie:	riffle				
2.	Name of Operator/ Company () Corp		nterpace Ind artnership ()	
3.	Permanent Address City: <u>Mica</u> Telephone Number:	PO Box 8, Sta (509) 924	Highway te: <u>Wa</u> -2120	27 Zip	Code: _	99023	
4.	Ownership of Land	Surface:					
Priva	te (Fee) ¶XII F	ublic Domain (BLM) 11_11	National	Forest	(USFS)	11_11
State	of Utah 11_11	Other:		1 , 1			
5.	Ownership of Mine	rals:					
Priva	te (Fee) 11 <u>7</u> 1 P	ublic Domain (BLM) 1 1 1	National	Forest	(USFS)	11_11
State	of Utah 11_11	Other:	*				

	Utah Mining Claim Number(s)					
		Utah State Lease Number(s)				
	6.	Have the above owners been notified in writing? Yes \underline{X} No $\underline{\hspace{1cm}}$ If no, why not?				
	7.	Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No				
II.	PRO.	JECT LOCATION & MAP (Rule R613-003-105)				
1/4 1/4 1/4	1/4	Project Location (legal description): County(ies): Summit , 1/4: SE,SW,NE Section: 34 Township: 4N Range: 4E Mine Site , 1/4: SW,SW,NE Section: 34 Township: 4N Range: 4E Road Only , 1/4: NE,SW Section: 34 Township: 4N Range: 4E Road Only , 1/4: NW,SW Section: 34 Township: 4N Range: 4E Road Only				
	2.	A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any previous disturbances in the immediate vicinity that he is not responsible for.				
III	. OPER	RATION PLAN (Rule R613-003-106)				
1.	Type	of mining: Surface $\sqrt{2}$ Underground $\sqrt{2}$				
2.	Miner	al(s) to be mined:Clay				
3.	by so trans	de a brief description of the proposed mining operation and onsite ssing facilities. no new surface disturbance is planned. The operating is to salvage clay from waste piles generated in the 1960-1965 period reening to remove rocks and gravel. Improve existing haul road to allow port of material from the mine site to a stockpile pad near the bottom of anyon. Temporarily store clay at this stockpile to load highway trucks ransport of material to the plant in Ogden, Utah.				
	New R	oad(s): Length $\underline{5000}$ (ft) Width $\underline{16}$ (ft) = 1.84 acres				
	Total	project surface acreage to be disturbed(acres)				
	1.84 .28 2.63	acres road: 5000 ft x 16 ft acres stockpile pad: 80 ft x 150 ft acres mining area: 275 ft x 416 ft acres total				

IV. OPERATION AND RECLAMATION PRACTICES (Rule R613-003-107 & 108)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

- 1. Keep the mining operation in a safe, clean, and environmentally stable condition.
- Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
- 3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
- Construct berms, fences, or barrjers, when needed, above highwalls and excavations.
- 5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
- 6. Remove all waste or debris from stream channels.
- 7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
- 8. Conduct mining activities so as to minimize erosion and control sediment.
- Reclaim all roads that are not part of a permanent transportation system.
- 10. Stockpile topsoil and suitable overburden prior to mining.
- 11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
- Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
- 13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
- 14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R613-003-109)

Yes 1 1 No 1 X1

Any planned deviations from Rules R613-003-107, Operation Practices, R613-003-108, Hole Plugging Requirements, or R613-003-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

Item Number	Variance Request Justification	
	No variances requested	

VI. SIGNATURE REQUIREMENT

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

Signature of Operator/Applicant:

Name (typed or print):

Title/Position (if applicable):

Date:

George A. Beamer

Assistant Plant Manager

May 25, 1989
